Hi Prof. Sturtivant,

Here is your postgresql connection info:
server: db.itlabs.umn.edu
username: carl
database: carl
password: jer38h54

So to connect you will want to do the following:
module load soft/postgres
psql -hdb.itlabs.umn.edu -W -U carl carl
It should then prompt you for your password.

Let me know if you have any questions/problems with it.

Thanks,

Kent Mein
